

Sensor Dimmer User Manual

Part No.	Feature	Remarks	Photos
SR-2005	High sensitivity. Detection range Max 6cm (IR Sensor).	IR Sensor	
SR-2018	Length Sensor line is >1M. Light will be on/off when your hand appears/moves away in the sensing area and a light dimming duration will be happened when your hand stays in the sensing area for a while(cycling dimming light:darkest-brightest-darkest-brightest...	IR Sensor	
SR-2020	Each Recyclic Light Dimming Duration (darkest-brightest-darkest) is 16-20 seconds.	IR Sensor only ON/OFF	
SR-2005B	Smooth, soft and gentle dimming light changes without any flash. 'Memory' function enables to remember the last brightness when re-power on this unit.	IR Sensor only ON/OFF	
SR-2018B	Two sensor shell can be chosen.	IR Sensor only ON/OFF	
SR-2401	Touch sensitivity can be adjusted according to different applications.	Insulated Touch	
SR-2403		Insulated Touch	
SR-2405	High stable and reliable sensor head.	Insulated Touch	
SR-2401B	Max length of sensor line is >1M.	Insulated Touch only ON/OFF	
SR-2403B	Smooth adjustment without any flash. 128 brightness levels for Insulated-Touch Dimmer.	Insulated Touch only ON/OFF	
SR-2405B	Two sensor shell can be chosen.	Insulated Touch only ON/OFF	

Part No.	Remarks	Photos
SR-2004	High sensitivity. Detection range Max 6cm (IR Sensor).	
SR-2017	Length Sensor line is >1M. Light will be on/off when your hand appears/moves away in the sensing area and a light dimming duration will be happened when your hand stays in the sensing area for a while(cycling dimming light: darkest-brightest-darkest-brightest...	
SR-2019	Each Recyclic Light Dimming Duration (darkest-brightest-darkest) is 16-20 seconds.	
SR-2004B	Smooth, soft and gentle dimming light changes without any flash. 'Memory' function enables to remember the last brightness when re-power on this unit .	
SR-2017B	LED Touch only ON/OFF	
SR-2019B	LED Touch only ON/OFF	
SR-2402	Metal Touch	
SR-2404	Metal Touch	
SR-2406	Touch sensitivity can be adjusted according to different applications. High stable and reliable sensor head. Max length of sensor line is >1M.	
SR-2402B	Smooth adjustment without any flash. 4 brightness levels for Metal-Touch Dimmer.	
SR-2404B	Metal Touch only ON/OFF	
SR-2406B	Metal Touch only ON/OFF
